Section 3. Hazards Identification

### Potential Acute Health Effects

Very hazardous in case of skin contact (irritant), of eye contact (irritant), of ingestion. Hazardous in case of skin contact (corrosive), of eye contact (corrosive), of inhalation. The amount of tissue damage depends on length of contact. Eye contact can result in corneal damage or blindness. Skin contact can produce inflammation and blistering. Inhalation of dust will produce irritation to gastro-intestinal or respiratory tract, characterized by burning, sneezing and coughing. Severe over-exposure can produce lung damage, choking, unconsciousness or death. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening, or, occasionally, blistering.

### Potential Chronic Health Effects

CARCINOGENIC EFFECTS: Not available.
MUTAGENIC EFFECTS: Not available.
TERATOGENIC EFFECTS: Not available.
DEVELOPMENTAL TOXICITY: Not available.

The substance may be toxic to teeth. Repeated or prolonged exposure to the substance can produce target organs damage. Repeated exposure of the eyes to a low level of dust can produce eye irritation. Repeated skin exposure can produce local skin destruction, or dermatitis. Repeated inhalation of dust can produce varying degree of respiratory irritation or lung damage.

---

Section 4. First Aid Measures

#### Eye Contact

Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Get medical attention immediately.

#### Skin Contact

In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Cover the irritated skin with an emollient. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

#### Serious Skin Contact

Wash with a disinfectant soap and cover the contaminated skin with an anti-bacterial cream. Seek medical attention.

#### Inhalation

If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

#### Serious Inhalation

Evacuate the victim to a safe area as soon as possible. Loosen tight clothing such as a collar, tie, belt or waistband. If breathing is difficult, administer oxygen. If the victim is not breathing, perform mouth-to-mouth resuscitation. WARNING: It may be hazardous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectious or corrosive. Seek immediate medical attention.

#### Ingestion

Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband.

#### Serious Ingestion

Not available.

---

Section 5. Fire and Explosion Data

#### Flammability of the Product

Non-flammable.

#### Auto-Ignition Temperature

Not applicable.

#### Flash Points

Not applicable.

#### Flammable Limits

Not applicable.

#### Products of Combustion

Not available.

#### Fire Hazards in Presence of Various Substances

Not applicable.

#### Explosion Hazards in Presence of Various Substances

Risks of explosion of the product in presence of mechanical impact: Not available.
Risks of explosion of the product in presence of static discharge: Not available.

#### Fire Fighting Media and Instructions

Not applicable.
### Section 6. Accidental Release Measures

**Small Spill**
- Use appropriate tools to put the spilled solid in a convenient waste disposal container.

**Large Spill**
- Corrosive solid.
- Stop leak if without risk. Do not get water inside container. Do not touch spilled material. Use water spray to reduce vapors. Prevent entry into sewers, basements or confined areas; dilute if needed. Call for assistance on disposal.

### Section 7. Handling and Storage

**Precautions**
- Keep container dry. Do not breathe dust. Never add water to this product. In case of insufficient ventilation, wear suitable respiratory equipment. If you feel unwell, seek medical attention and show the label when possible. Avoid contact with skin and eyes. Keep away from incompatibles such as oxidizing agents, alkalis.

**Storage**
- Hygroscopic. Keep container tightly closed. Keep container in a cool, well-ventilated area.

### Section 8. Exposure Controls / Personal Protection

**Engineering Controls**
- Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

**Personal Protection**
- Splash goggles. Synthetic apron. Vapor and dust respirator. Be sure to use an approved/certified respirator or equivalent. Gloves.

**Personal Protection in Case of a Large Spill**
- Splash goggles. Full suit. Vapor and dust respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

**Exposure Limits**
- Not available.

### Section 9. Physical and Chemical Properties

**Physical state and appearance**
- Solid. (Moist solid. Crystals solid.)

Sodium bisulfate monohydrate

Solubility

- Easily soluble in cold water.
- Solubility in water: 67g/100 ml
- Soluble in about 0.8 parts water.
- Decomposed by alcohol into sodium sulfate and free H2SO4.

Section 10. Stability and Reactivity Data

Stability

- The product is stable.

Instability Temperature

- Not available.

Conditions of Instability

- Incompatible materials, moisture

Incompatibility with various substances

- Reactive with oxidizing agents, alkalies.

Corrosivity

- Non-corrosive in presence of glass.

Special Remarks on Reactivity

- Hygroscopic; keep container tightly closed.
- Incompatible with hypochlorites, and alcohols

Special Remarks on Corrosivity

- Not available.

Polymerization

- Will not occur.

Section 11. Toxicological Information

Routes of Entry

- Inhalation, Ingestion.

Toxicity to Animals

- LD50: Not available.
- LC50: Not available.

Chronic Effects on Humans

- May cause damage to the following organs: teeth.

Other Toxic Effects on Humans

- Very hazardous in case of skin contact (irritant), of ingestion.
- Hazardous in case of skin contact (corrosive), of eye contact (corrosive), of inhalation.

Special Remarks on Toxicity to Animals

- Not available.

Special Remarks on Chronic Effects on Humans

- May affect genetic material (mutagenic)

Special Remarks on other Toxic Effects on Humans

- Acute Potential Health Effects:
  - Skin: Can cause severe skin irritation or burns.
  - Eyes: Can cause severe irritation or burns of the eyes.
- Inhalation: It is destructive to the mucous membranes of the upper respiratory tract. Causes irritation and chemical burns to the respiratory tract with burning pain in the nose and throat, coughing, wheezing, shortness of breath, and pulmonary edema. Inhalation may be fatal as a result of spasm, inflammation, edema of the larynx and bronchi, chemical pneumonitis, and pulmonary edema.
- Ingestion: Causes gastrointestinal tract irritation and burns. Symptoms may include nausea and vomiting. May cause severe and permanent damage to the digestive tract.

- Chronic Potential Health Effects:
  - Repeated exposure may cause erosion of teeth

Section 12. Ecological Information

Ecotoxicity

- Not available.

BOD5 and COD

- Not available.

Products of Biodegradation

- Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise.

Toxicity of the Products of Biodegradation

- The product itself and its products of degradation are not toxic.

Continued on Next Page
**Section 13. Disposal Considerations**

**Waste Disposal**
Waste must be disposed of in accordance with federal, state and local environmental control regulations.

**Section 14. Transport Information**

**DOT Classification**
Class 8: Corrosive material

**Identification**
UNNA: 1759: Corrosive Solid, n.o.s (Sodium Bisulfate)  PG: III

**Special Provisions for Transport**
Not available.

**DOT(Pictograms)**

![Pictogram]

**Section 15. Other Regulatory Information and Pictograms**

**Federal and State Regulations**
For Sodium Bisulfate anhydrous (CAS no. 7681-38-1):
Connecticut hazardous material survey: Sodium bisulfate (Listed as Sodium Hydrogen Sulfate)
New Jersey: Sodium bisulfate (Listed as Sodium Hydrogen Sulfate)
Sodium Bisulfate monohydrate (CAS no. 10034-88-5) is not present on any state lists.

**California Proposition 65 Warnings**
California prop. 65: This product contains the following ingredients for which the State of California has found to cause cancer which would require a warning under the statute: No products were found.
California prop. 65: This product contains the following ingredients for which the State of California has found to cause birth defects which would require a warning under the statute: No products were found.

**Other Regulations**
EINECS: This product is not on the European Inventory of Existing Commercial Chemical Substances.
Canada: Not listed on Canadian Domestic Substance List (DSL) or Canadian Non-Domestic Substance List (NDSL).
China: Listed on National Inventory.
Japan: Not listed on National Inventory (ENCS).
Korea: Not listed on National Inventory (KECI).
Philippines: Listed on National Inventory (PICCS).
Australia: Listed on AICS.

**Other Classifications**
WHMIS (Canada) CLASS E: Corrosive solid.
DSCL (EEC) R41- Risk of serious damage to eyes
S24- Avoid contact with skin.
S26- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

### Protective Equipment

- Gloves
- Synthetic apron
- Vapor and dust respirator. Be sure to use an approved/certified respirator or equivalent.
- Wear appropriate respirator when ventilation is inadequate.
- Splash goggles
