Section I - GENERAL INFORMATION

Company: Mid-American Research Chemical Corp.
Address: P O Box 927 Columbus NE 68602-0927
Telephone No. (402)564-7104
Fax No. (402)563-1290
Date 04/27/11

Section II - HAZARDOUS INGREDIENTS/IDENTITY INFORMATION

<table>
<thead>
<tr>
<th>Hazardous Component</th>
<th>CAS Number</th>
<th>Exposure TLV (Units)</th>
<th>% (Optional)</th>

Section IV - FIRE AND EXPLOSION HAZARD DATA

Flash Point (°F) (Method Used)
0°F (T.O.C.)

Extinguishing Media
Foam, CO2, Dry Media.

Special Fire Fighting Procedures
Wear self-contained breathing apparatus and protective clothing. Cool fire exposed containers to prevent rupturing.

Unusual Fire and Explosion Hazards
Exposure to temperature above 120°F may cause bursting.

N/A = Not Applicable
N/D = Not Determined

Section VI - HEALTH HAZARD DATA

Route(s) of Entry: Inhalation X Eyes/Skin X Ingestion X

Health Hazards (Acute & Chronic)

See "signs" and symptoms below.

Carcinogenicity: NTP IARC Monographs OSHA Regulated

Signs and Symptoms of Overexposure

EYES: May cause severe eye irritation accompanied by sting, tearing, redness and pain. Prolonged overexposure to vapors may cause moderate irritation. SKIN: May cause mild to moderate irritation. Prolonged overexposure to liquid concentrate can result in defatting an drying of skin which may result in irritation and dermatitis. INHALATION: May cause irritation of the respiratory tract, coughing, dizziness, headache, nausea, and loss of coordination. Continued overexposure to vapor concentrations in excess of the accepted exposure limits can lead to more severe central nervous system effects including narcosis, unconsciousness, and even death. INGESTION: Liquid concentrate, in large quantities, may be harmful or fatal if swallowed. May cause gastrointestinal irritation, nausea, vomiting, diarrhea, abdominal and lower back pain. Ingestion of sufficient quantity can produce central nervous system effects and may cause damage to the liver and kidneys. Aspiration of the material into lungs may cause lung damage.

Medical Conditions Generally Aggravated by Exposure

May aggravate existing eye conditions, skin conditions and existing respiratory conditions.

Emergency and First Aid Procedures

EYES: Flush with large amounts of cool running water for at least 15 minutes while holding upper and lower lids open. If irritation persists get medical attention immediately. SKIN: Wash with soap and water. If irritation persists seek medical attention. INHALATION: Excessive or abusive inhalation: Remove to fresh air. Seek medical attention immediately. If breathing stops give artificial respiration. INGESTION: DO NOT INDUCE VOMITING! Seek medical attention immediately.

Section VII - PRECAUTIONS FOR SAFE HANDLING AND USE

Steps to be Taken in Case Material is Released or Spilled

Allow propellant to evaporate. Maintain local exhaust and adequate ventilation. No smoking. Keep sparks, heat sources and open flame far away from spill or leak. Cover with absorbent material and sweep up. Wash area to prevent slipping. Dispose of soaked absorbent material in accordance with Federal, State and local laws.

Waste Disposal Method

Aerosol cans, when emptied and depressurized through normal use, pose no disposal hazard and should be recycled. Consult Federal, State and local authorities for approved procedures.

Precautions to be Taken in Handling and Storing

DO NOT TAKE INTERNALLY.

For Industrial and Institutional use only. Store in a cool, dry area away from heat or open flame. Do not store at temperatures above 120°F.

Other Precautions

KEEP OUT OF REACH OF CHILDREN!! CAREFULLY READ ENTIRE LABEL BEFORE USE!

Section VIII - CONTROL MEASURES

Respiratory Protection (Specify Type)

None needed for proper use in accordance with label directions.

Ventilation

Local Exhaust Mechanical (General)

Other

Protective Gloves: None needed if used with label directions. Eye Protection: Safety glasses or chemical proof goggles.

Other Protective Clothing or Equipment

Work/Hygienic Practices
