

Housing Application | Living/Learning Communities

2017-2018

All residents have the opportunity to sign up for the Living/Learning Community they prefer to live.

This allows residents to sign up to live with others on their floor or area that prefer to live in the same type of Living/Learning Community. Hall staff will make efforts to program specific activities geared toward that particular community. Residents have the option of signing up for more than one community.

The following Living/Learning Communities (LLC's) are offered:

Wellness Living/Learning Community: Wellness LLC's will be for residents who choose to live with other groups who value physical, academic, spiritual and psychological balance.

Academic Living/Learning Community: Academic LLC's will be for residents who value living in an area where academics are stressed and are free from interruptions that may impede their academic potential.

Social Justice/Learning Community: Social Justice LLC's are for residents who are concerned with human rights, community service, and are open to explore others' values and lifestyles.

Substance-Free Living/Learning Community: Substance-free LLC's are for residents who wish to live a sober lifestyle and avoid the negative first- and second-hand effects of alcohol and/or other substances.

How to apply for a LLC:

Indicate which LLC interests you on your housing application.

If you have any questions, please contact Jim Bajczyk at 920-565-1042.
