Students have the opportunity to teach classes under the supervision of both University faculty and a cooperating teacher from an area school. Student teaching is a full-day, full-semester experience which follows the semester calendar of the cooperating school. The classroom teaching experience is supplemented by required seminar sessions addressing the development of the professional portfolio.

### SECTION I: PROGRAM INFORMATION

# **Teachers Prepared**

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

### THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

## **Teachers Prepared by Subject Area**

Please provide the number of teachers prepared by subject area for academic year 2023-24.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

### What are CIP Codes?

No teachers prepared in academic year 2023-24

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<a href="https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55">https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55</a>).

## **Teachers Prepared by Academic Major**

Please provide the number of teachers prepared by academic major for academic year 2023-24. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

### What are CIP Codes?

# **Program Assurances**

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

	UDES:

>> Program Assurances

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach based on past hiring and recruitment trends.
Yes No
Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.  Yes No
Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.  Yes     No     Program does not prepare special education teachers
Prospective general education teachers are prepared to provide instruction to students with disabilities.      Yes     No
Prospective general education teachers are prepared to provide instruction to limited English proficient students.     Yes     No
Prospective general education teachers are prepared to provide instruction to students from low-income families.     Yes     No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

8. Describe your institution's most successful strategies in meeting the assurances listed above:

All students are required to complete EDU 432-Survey of the Exceptional Person. The course is a survey of developmental disorders and disabilities as they affect parents and families, students, and teachers of exceptional children. Our teacher education program trains prospective teachers to become competent and qualified teachers in providing instruction to children with disabilities and also to limited English proficient students. All students are also required to complete EDU 373 Field Experience. A major component of this course includes tutoring and teaching diverse students for a minimum of 50 hours. Lastly, K-9 students have the option to add on the K-12 Cross-Categorical Special Education License through partnership with CESA 7.

## **Annual Goals: Mathematics**

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## **Assessment Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All education students are required to complete EDU 140, Introduction to Educational Technology. This course addresses the fundamentals of educational technology and instructional design. Students explore media, computers, and related technologies as they relate to the classroom setting. Students explore and evaluate how, when, and where technology should be integrated in the classroom. Upon completion of this course, students will be able to meet the technology standards drawn from NETS (National Educational Technology Standards), Wisconsin Model Academic Standards for Information and Technology Literacy, and the Wisconsin Standards for Teacher Development and Licensure. Each year, the Education Program prepares an assessment report. The assessment report contains various types of data, i.e. passing rates on standardized tests, portfolio evaluations, student teaching evaluations, alumni surveys, etc. The data is compiled using Excel and analyzed by the faculty of the Education Program for any trends or patterns that may dictate changes to the curriculum or processes.
