

**LAKELAND**  
UNIVERSITY

Lakeland is an **innovative** university that works with students to turn their goals into reality.

Our flexible learning options give students the freedom to:

- Work
- Participate in athletics and clubs/organizations
- Create lifelong relationships

At Lakeland we value hard work, and our award-winning Cooperative Education program is providing a new way for students to earn a bachelor's degree.

**Cooperative education** allows you to earn academic credit for your work and prepare you for the real world while controlling the cost of college.

# EDUCATION

## EARLY ADOLESCENCE THROUGH ADOLESCENCE EDUCATION (middle/secondary education)

You're inspired to benefit society and positively impact the future. You strive to make a difference in the lives of children for years to come.

By becoming a teacher, you will accomplish these things, while contributing to one of the world's oldest – and most important – professions.

Lakeland's state and nationally accredited education program will usher you into the classroom, fully prepared for a rewarding career.

"I think we are one of the best, and we can compete against anybody," says Mehraban Khodavandi, professor of education and psychology. "One criterion I always use to find out how we can make that claim is the number of schools that hire our graduates. We have a very high employment rate. Students who graduate from Lakeland University are hired by many schools in the state and other states."

Lakeland's education program is divided into four segments, or areas of certification: PK-6 (Early Childhood through Middle Childhood), 1-8 (Middle Childhood through Early Adolescence), 6-12 (Early Adolescence through Adolescence), and K-12 (Early Childhood through Adolescence). Once you've chosen which age group of student you would like to teach, you will begin your journey toward making a difference.

### HIGHLIGHTS

- Customized advising provides students the ability to work closely with professors throughout their academic career at Lakeland and have the ability to graduate within four years.
- Lakeland University's ideal location offers students field observation and student teaching experiences in a variety of school districts.
- Education majors can receive Department of Public Instruction certification in the following areas: early childhood through middle childhood (PK-6); middle childhood through early adolescence (18); early adolescence through adolescence (6-12); broad field science; and broad field social studies.
- Lakeland's master's in education program allows students to continue advanced education in their major and network with education professionals.

Graduate with 12-18 months of professional work experience.
